

CITY OF SPRINGFIELD  
INTER-OFFICE MEMORANDUM

ATTENTION OF \_\_\_\_\_ FILE \_\_\_\_\_

DATE June 7, 1983 \_\_\_\_\_

DEPARTMENT \_\_\_\_\_

11:00 A.M. 6-6-83

Inspected Ron's Transmission at 1910 N. National. Minute amount of oil on lot. Waste is drummed up. No spillage observed leaving property. Ron Dyer, Owner, said he has had numerous complaints from Abernathy. Wants to know if alley south at Atlantic between National and Prospect is vacated. Has trouble with access to rear lot due to Abernathy equipment blocking alley.

1:00 P.M. 6-6-83

Called Abernathy (Nathan), he was not in. Mr. Clifford VanNatta was not in either. I explained to Mike VanNatta that I received a complaint and that we would be out ASAP to inspect.

1:25 P.M. 6-6-83

Arrived at 1221 E. Thoman. Mike VanNatta indicated that oil and ashes have been discharged onto their property. We could observe no oil and a very small quantity of ashes. The Abernathy Equipment property is cluttered with a menagerie of equipment. Some spots of oil are on the ground around their equipment.

We could see no problem so great as to warrant any action on the part of the Public Works Department.

At 3:00 P.M. we talked with Ron Dyer and asked him if he could move his oil drum and clean up any spilled oil and ashes near the property line. He indicated that he would.

1910 N. National
